REV. 9/2011

## MODEL PGRM-SB

### NEW Sub Surface Sensing Technology

### NEW Floating Pool Alarm

- The Poolguard “Safety Buoy”, once installed in the pool, cannot be deactivated; it is always in the alarm ready mode.
- Tamper Proof: Poolguard “Safety Buoy” will sound an alarm when removed from the pool.
- Sleep Mode: when you would like to use your pool, simply remove the alarm from the pool and put it into sleep mode.
- Automatic Wake-up: The Poolguard “Safety Buoy” will automatically wake up and run a system test when installed into the pool.
- The Poolguard “Safety Buoy” comes with an in house remote receiver that has a range up to 200 ft., and comes with a 12 volt power supply.
- The Poolguard poolside alarm works with a 9-volt battery (not included), with a battery life of approximately one year.
- Audible low battery indicator at the poolside alarm will chirp every 20 seconds when battery is low.
- New sensing technology provides less chance of false alarms due to wind, rain or small objects such as sticks or toys entering the water.
- Works with pools 30’ in diameter and pools up to 16’ X 32’
- The Poolguard “Safety Buoy” has been tested and certified by NSF International to the ASTM Standard Safety Specification for Residential Pool Alarms, ASTM F2208-08.
- Ideal for above ground pools, especially soft sided portable pools, as well as spas and small in ground pools where mounting the alarm to the deck is not possible.
- Poolguard “Safety Buoy” is designed to detect intrusions similar to a one year old child.
- “Poolguard “Safety Buoy” is the only floating Pool Alarm on the market that uses Sub Surface Detection Technology”
